

UTE GREINER, BA MSc

WEB DEVELOPER WITH A
MARKETING BACKGROUND

I am a creative and open minded person with a good sense for design, which I honed during my career in marketing. I want to combine web development with my marketing expertise and would like to further grow in that field as a frontend developer.

TECH EXPERIENCE

Full Stack Web Development

UpLeveled GmbH

Graduate | Vienna, Austria

09.2022 - 12.2022

The Upleveled full stack web development programme is an immersive web development bootcamp, in which we learned the latest technologies and applied our knowledge in multiple projects. Two of my latest projects are:

feastful - Search cooking lessons

feastful is a responsive full stack application. This app allows users to search for cooking lessons, and once authorised & authenticated, to create cooking lesson offers. Users may upload images to the site to complete their profiles and illustrate their cooking lesson offers.

Technologies: *Next.js, React, TypeScript, PostgreSQL, Cookies, REST API, Cloudinary, MaterialUI, DrawSQL, Figma*

planteria - E-commerce store

planteria is a full stack shop for exotic plants. The project has a landing page, an overview of all products, dynamic routes to product pages including the option to add products to the cart, a cart and a checkout page.

Technologies: *Next.js, React, TypeScript, PostgreSQL, Cookies, Emotion, Jest, Playwright*
